

One's – Miss Katie Week of December 28-January 1, 2021

Peek at Our Week

Standard Focus	Activity	Home Extension Activity
Responds to and initiates care routines that support personal hygiene	Practice washing our hands at the sink to promote personal hygiene.	Make a game at home by taking a baby doll and washing their hands and face to show that it is good to wash hands so that germs do not spread.
Increasingly coordinates hand and eye movements to perform a variety of actions with increasing precision	We will be taking out tissue paper for the children to crumple or shake with their hands.	Put music on at the house and have a dance party to promote hand and eye coordination.
Begins to use body to demonstrate an understanding of basic spatial directions (up, down, in, out, around and under)	We will be making a game of rolling a ball through our tunnel and the children have to crawl through the tunnel to get the ball.	Roll a ball under your table at home and have your child go under the table to get the ball so they will have an understanding that they had to travel under the table to get the ball.
