<p>VIII. Creative Expression through the Arts A. SENSORY ART EXPERIENCE 1. Uses imagination and creativity to express self with intention using a variety of open-ended, process-oriented and diverse art materials</p>	<p>This week we are going to crush different herbs and spices with mortars and use them to create our own paint. We will have them describe what they smell, and if it changes as they crush it.</p>	<p>This week while cooking dinner, let your child help you. As you are adding the herbs and spices into your dishes let them smell them and try to describe them.</p> 
<p>VI. Scientific Inquiry A. SCIENTIFIC INQUIRY THROUGH EXPLORATION AND DISCOVERY 1. Uses senses to explore and understand their social and physical environment Benchmark a. Begins to identify each of the five senses and how they relate to the sense organs Benchmark b. Uses senses to observe and experience objects and environment</p>	<p>In small groups, have several paper bags set out each one containing something with a scent, and we will see if the children can guess what the scent is.</p> 	<p>Create your own scent guessing activity by gathering common foods around the kitchen and see if they can guess what it is by smelling it while blindfolded.</p>
<p>VI. Scientific Inquiry A. SCIENTIFIC INQUIRY THROUGH EXPLORATION AND DISCOVERY 1. Uses senses to explore and understand their social and physical environment Benchmark a. Begins to identify each of the five senses and how they relate to the sense organs Benchmark b. Uses senses to observe and experience objects and environment</p>	<p>Take the children for an "I Spy" walk around the school. See if they can spy things that they can see, smell, hear, feel and taste.</p> 	<p>Take an "I Spy" walk with your child this week, and see if they can spy things that they can see, smell, hear, feel and taste.</p>
