

STANDARDS	ACTIVITY	HOME EXTENSION
<p><b>V. Mathematical Thinking F. MEASUREMENT AND DATA</b>            1. Uses size words to label objects 3. Measures object attributes using a variety of standard and nonstandard tools with adult guidance 4. Participates in group sorting and data collection.</p>	<p>At circle each week we will observe Pumpkin Jack weekly, that is sitting in the science center, and charting the changes on chart paper including pictures.</p> 	<p>Provide opportunities in your child's room for them to sort items (e.g., books, cars, dolls, game.) They can also sort common household foods or items (e.g., different colors of apples or things that make noise and things that do not) and arrange into sets.</p>
<p><b>VI. Scientific Inquiry A. SCIENTIFIC INQUIRY THROUGH EXPLORATION AND DISCOVERY</b>            1. Uses senses to explore and understand their social and physical environment            Benchmark a. Begins to identify each of the five senses and how they relate to the sense organs            Benchmark b. Uses senses to observe and experience objects and environment.</p>	<p>This week we are exploring our sense of sight. We are going to use our SIGHT to observe what happens to cut apples when they are placed into different types of liquid, to see how they change.</p> 	<p>Play a game of eye spy with your child, to let the use their sense of sight.</p>
<p><b>VI. Scientific Inquiry A. SCIENTIFIC INQUIRY THROUGH EXPLORATION AND DISCOVERY</b>            1. Uses senses to explore and understand their social and physical environment            Benchmark a. Begins to identify each of the five senses and how they relate to the sense organs            Benchmark b. Uses senses to observe and experience objects and environment</p>	<p>In circle we will talk about different disabilities and issues that some people may have with their sight. We will talk about how when someone loses one sense, other senses can be heightened, so often if we don't have sight, our sense of hearing and touch are heightened. We will let the children explore a brail book.</p>	<p>Play a game of Marco polo with your child, using an eye covering and have them search for you or other family members by using only their sense of hearing.</p>
